Presentation Picnic

Sunday 20th of January

Albert Park Lake

Midday

Bring the whole family and enjoy a fun afternoon in the Park

Editorial Ramblings

2008 is upon us, so you've probably been camped out at your letter box waiting to receive your latest issue of INSIDE LINE....well Xmas arrived first, but finally it is here! This will be only a brief mag for the month as we needed to get some info out to you before the holiday break so you can all organize your calendars.....

We have a new President elect, for those who don't know, Jamie Augustine has been voted in at the last club meeting as President for 2008. There is also a new Committee, with a list those elected over the page. Thanks go to Cammy for his time spent as President of the club. There has been a lot to deal with of the last couple of months but with these issues now resolved, we can now all get back to having some great racing.

So on to the Calendar and the first round for 2008. This will be held at Calder Park on Saturday February 2nd. We know that round 1 is very early, but we can't do anything about it. But, just like last years successful event, it will be a one day twilight event. So it is well worth hurrying to get your cars ready to race in this entertaining event. To encourage entry's at this event, there will be an extra 5 bonus points per race started for attendance at the first round. To assist those who can't get to the first round, you will be able to drop any round except the last round in the club championship point score.

One off round with CAMS series March 1-2 Sandown

U/2litre Competitors with a CAMS licence have been asked to race at the Sandown CAMS round. If you want to be involved, our cars will need to be Targeted Scrutineered if they haven't been done already. This will have to be completed beforehand, so please contact us with your interest in running this event so we can ensure you are included in the organized Targeted Scrutiny.

2008 Racing Rules

We will aim to continue Pit stop racing, Staggered reverse grids and one lap qualifying. We have decided to only run these special events if there are more than 12 cars entered at that round. There will be no more reverse grid races if the starts are not staggered due to the congestion it causes going into turn 1 at Calder. Turbo's will be allowed after the vote was passed at the last meeting. See the web site for updated turbo rules. (not too much has changed from last season)

The Trophy Presentation will be held along with a short club meeting on Sunday 20th of January At Albert Park Lake. The event will start at midday, behind the GP pit buildings. Park near the GP pit buildings then walk around behind them. We will have the club banner up to show you were to go. Bring shelters, food and drinks, it will be a picnic style event for the whole family. More details are on the web site

Paul Tippens
